IMPORTANT SAFETY INSTRUCTIONS

Please read and understand this entire manual before attempting to assemble, operate or install the product. Please save this instruction manual.

WARNING

- Risk of electric shock: turn power off before installing.
- This rope light must be installed in a dry, open location only.
- **CAUTION:** To reduce the risk of fire, do not install more than 2 rope lights in spaces smaller than 12 inches by 12 inches by 12 inches.
- Use only plastic ties to secure power cord.
- Not intended for recessed installation in ceilings, or recessed soffits.
- The National Electrical Code (NEC) does not permit cords to be concealed where damage to insulation may go unnoticed. To prevent fire danger, do not run cord behind walls, ceilings, soffits, or cabinets where it may be inaccessible for examination. Cords should be visually examined periodically and immediately replaced when any damage is noted.
- This product is not a toy. Do not store or leave this rope light in a location accessible to young children.
- Do not install this rope light near or in heat-producing appliances.
- Risk of fire hazard, only connect a maximum of the TOTAL length.

CL-TRL12RGB - LINKABLE UP TO 180'

- Ensure NOT to exceed the above maximum total length.
- If this unit is installed in an outdoor location, the power plug (BB) must be fully covered by an certified outdoor covering for use in for a wet location.

CAUTION

- Remove batteries from the remote control (CC) to prevent product damage when the product is not used for a long period of time.
- Batteries must be inserted in the correct position.
- Do not throw batteries into fire or expose them to excess heat.

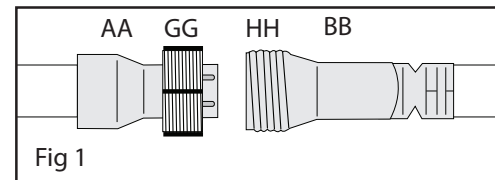

PREPARATION

- Before beginning assembly, installation or operation of product, make sure all parts are present. Compare parts with package contents list. If any part is missing or damaged, do not attempt to assemble, install or operate the products. Contact customer service for replacement parts.
- Tools required for assembly (not included):
 - Phillips screwdriver • Safety glasses • Ladder • Scissors

ASSEMBLY INSTRUCTIONS

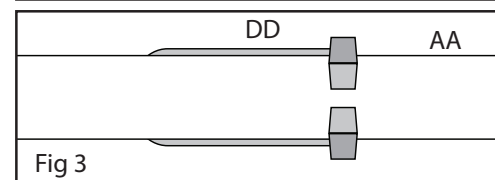

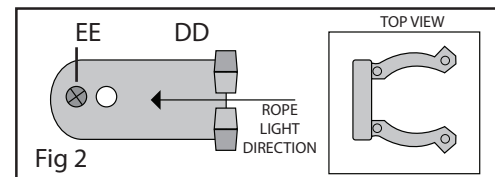

1. MEASURE: Lay out the installation. Ensure the mounting surface is clean and free of any debris or residue.

2. PLUG THE ROPE LIGHT TO THE POWER ADAPTOR: **First, ensure the power adaptor is not plugged into an electrical socket.** Connect the rope light (AA) to the power adaptor (BB), making sure to match the two prongs in the rope light (AA) into the two holes in the power adaptor (BB). Twist the nozzle (GG) onto the power cord end (HH) until the fit is secure (Fig 1).

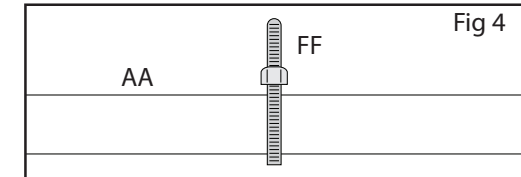

3. MOUNT: Use the mounting clips (DD) with the screws (EE) and/or zip ties (FF) to mount the rope light to the desired surface.

A) Using a screw (EE), secure the mounting clip (DD) to the desired surface making sure it is in a direction that the rope light (AA) can snap into (Fig 2). Repeat. Snap the rope light (AA) into each mounting clip (DD) (Fig 3).

B) Use a zip tie (FF) to secure the rope light (AA) to the desired surface (Fig 4). Make sure to zip tie (FF) the rope light (AA) to a surface that makes the rope light (AA) tight and secure. Repeat.

Plug the power to the wall socket. Your rope light and remote are now ready to use.

To use the remote control (CC), ensure you are no more than 25 feet away from the power adaptor/remote receiver (BB). See Fig 5 on Page 4 for remote features.
